**The Wrong of Slavery, the Right of
Emancipation, and the Future of the
African Race in the United States**

Robert Dale Owen (1801 - 1877)

Based largely off of the work of the Freedmen's Inquiry Commission where Owen served, this book traces the early beginnings of the slave trade from its English beginning to the United States Civil War. It puts a focus on the barbarism of the slave trade from capture and transportation to the arrival in the Americas, the extreme cruelties that took place in the West Indies and South America, facts about slavery in the United States, and the advantages of a freed black population to the South. (Summary by mleigh)
